Learning Activity:

Week 1 Software Engineering

Task	Description
1	Form a group of 3. You must stay in this for the course.
2	Select 1 project from the list provided in the first assignment.
3	Discuss among yourselves about the user and software requirements for the project.
4	Speak with the teacher to register your project with the teacher by end on week 1.
5	Continue with working on this project.
